

# Micrography Contest

## Rules & Guidelines

### Submission:

Any registered delegate, interested in participating in the micrography contest can submit their entries in their final display format at the **Registration Desk** meant for the 'Micrography Contest' at the conference venue. The student also needs to fill up the Micrography contest participation form enclosed below.

### Preparation:

- The micrographs may be colored or black & white with a dimension maximum of 12" × 10" and shall be pasted on a base white sheet of size not bigger than A3 (preferably on a hard backup sheet).
- On the front side, the entry should contain an attractive caption, a brief description of the micrograph (30 words maximum), the registration number of the contestant/s, the technique used, and the specialty of the photomicrograph.
- On the back side, names and affiliation details of the contestant/s shall be written along with a declaration that "This is the contestant's original work".
- **Entries with names on the front side are liable to be rejected.**

### General Instructions:

- Micrographs submitted for the contest shall be of good quality with micron marker and based on the original work of the contestants.
- EMSI-2023 would like to acquire the 'copyright' on award-winning entries and reserves the right to publish the prize-winning entries in the News or any other befitting publications.
- Organizers reserve the right to reject 'incomplete entries' and 'entries not satisfying basic competition standards'.
- An entry shall be done in one of the following three categories specified
  - 1. Optical and SEM**
  - 2. TEM and HRTEM**
  - 3. Other microscopic techniques**Re-categorization will not be permitted once an entry has been submitted.
- Any registered delegate can submit a maximum of one entry per category, but not more than 3 entries in total.
- **Best Micrography** awards will be presented in the concluding session of EMSI-2023.

### Selection:

A team of eminent judges will select the prize-winning entries based on technical content, aesthetics (visual appeal), level of expertise in using the technique, scientific importance, and merits of the entry, etc. And the decision of the judges shall be FINAL.

**Awards:** First and Second prizes will be awarded in each category.
